## PROFILE

I am a passionate and results-driven web developer with strong expertise in Next.js and React.js. With a solid foundation in front-end development, I focus on building scalable, high-performance web applications. I am experienced in creating intuitive user interfaces and solving complex problems through clean and efficient code. Always eager to learn and grow, I aim to contribute to impactful projects and deliver exceptional user experiences.

## WORK EXPERIENCE

**Silver Sparrow Studios, Islamabad**

**January 2025 - Present**

### Junior Developer

- Developed and maintained websites using HTML, CSS, JavaScript, React, and Next.js.
- Collaborated with cross-functional teams (designers, backend developers, etc.) to design and implement user interface elements, including menus, tabs, and widgets.
- Performed debugging of client-side code to identify and resolve issues, ensuring smooth functionality and bug-free user experience.
- Tailored unique themes and layouts to meet specific project requirements and client needs.
- Built responsive designs that adapt seamlessly to various devices and screen sizes, improving accessibility and user engagement.
- Integrated version control (Git) into the development process, ensuring smooth collaboration and tracking of code changes.
- Provided technical support to users, resolving issues and offering guidance on website features.
- Implemented design solutions to enhance UI/UX, improving user interaction and satisfaction.
- Continuously learned and adopted new tools and best practices in web development to stay up-to-date with industry trends.

### MaxRemind I Rawalpindi Device Manager

**2024 - 2025**

- Overseeing the deployment of new devices, ensuring they are properly configured according to organizational standards and user needs.
- Tracking and managing inventory of all devices.
- All devices are equipped with the necessary tools and applications.
